Distance Learning Option with a personal touch

How it works

We bring the world of learning to you in the comfort of your own home. Our Degree (Level 5) and Masters Level (Level 7) ILM courses can be utilised as a distance learning tool using the following methodology:-

-  Induction is achieved using a web based link to our website and induction provided via e mail
-  Using the delivery dates in the published unchanged programmes in the UK, the learning materials/ handouts will be sent out to you via e mail on that particular delivery day
-  This is backed up with a tel call (as agreed with times/dates) to go over the main points of the learning outcomes
-  You would send an electronic signature on a supplied document that states you have understood the materials and have been given support for each unit, as well as researched the subject further
-  The work outcomes from the main units expected from the candidate for the chosen programme level remain the same and will be accepted as e mail attachments with submission dates agreed
-  Assessment of these submitted work outcomes and feedback/ marks are supplied via e mail or SKYPE connections at a suitable and agreed time
-  Any coaching you may have to undertake can be achieved via a SKYPE connection / or telephone connection using emailed documents for the assessor to examine

Distance Learning delivery rates:-

-  £250.00 per delivery day includes provision of web based induction, e mailed materials/ ILM materials and follow up phone call for each delivery day (delivery dates as scheduled programme specification.)
-  £TBC ILM registration/ certification fee (fixed charge) this includes marking/ feedback and IV for the programme chosen
-  £60.00 per tutorial hours used (For courses that require tutorials) this includes the e mails/ tel calls used
