# What a great place to 'learn', away from the hustle and bustle of city life.

## Just an hour's train journey from London

And central to many other locations, our courses are held in beautiful Loddington on the ARET Game Conservancy rural estate just off the A47 at East Norton, Leicestershire / Rutland border. It is very customer friendly, exponential in its approach and accommodates candidates' needs & requirements that are reflected by their growth factors as a coach or mentor.

## About this Masters Level Qualification

The ILM Level 7 Certificate in Executive Coaching and Leadership Mentoring and the ILM Level 7 Diploma For Professional Executive Coaches and Leadership Mentors aim to provide practicing senior leaders and managers (or those working in a training and development role) with the knowledge, skills and confidence to perform effectively as coaches and mentors as part of their normal work role.

In addition the Diploma aims to equip participants seeking to move into a development role within their organisation, or to freelance as an executive coach or leadership mentor.

These units will require a high level work submission of work based assignments (WBA) and some 12 hours of either coaching or mentoring that you carry out and has to be supervised (not observed; supervision is the overview of the reports you produce of your own work and for 12 hours normally takes around 3-4 hrs). This would take you to certificate level.

If you want to go on to the Diploma (Professional) level, then Unit D7.04 would need training (x 1 day) and a further 125 hours of either coaching or mentoring would need to be carried out by yourself and be supervised by our experts (number of hours would be agreed).

**The ILM Level 7 Certificate in Executive Coaching and Leadership Mentoring** Is made up of three mandatory units which enable participants to develop their understanding of this level of coaching and mentoring and to develop the skills necessary to assist their clients.

In this first mandatory unit participants critically review their own ability to perform effectively as a leadership mentor or executive coach, engaging in peer mentoring to seek feedback and advice on individual performance. ## What they say about us

**Dr Rachel Farmer, Managing Director RSF Consultancy says:-**

The course was a great opportunity to build on my existing skills by putting them into practice with other professional participants and underpinning those skills with relevant coaching and mentoring theory. We had the chance to try out new ideas in an interactive way whilst exchanging cutting edge ideas and carrying out our own research and doing case studies for the assignments. The network that we built up as course participants added extra value to the course. The qualification gave me the confidence to branch into new areas in my own practice, expanding from working with leaders in UK businesses to coaching and mentoring international corporate clients.

**Dr Anthea Mowat, NHS Trust, says:-**

I just want to thank you and all the team for a most enjoyable and informative course on Coaching Leadership at Lincoln. All the delegates thoroughly enjoyed the day, and have learnt a lot. I hope we can do something again in the future.
